Professional Profile

System Engineer of the Catholic University of Colombia, certified Java Professional and Expert by Oracle, passionate about development and design integrals, enterprise software solutions especially using Spring, but with knowledge in JEE, fundamentally in the financial sector. Extensive knowledge in RUP and SCRUM methodologies.

I would characterize myself as being a passionate person about software with a high level of discipline, extensive technical knowledge, and leadership skills.

Skills

General:

- Excellent interpersonal relationships, especially with customers
- Ability to transform business processes into automated processes.

Leadership:

- Excellent communication with customers, subordinates, and quality assurance enterprises to coordinate efforts to achieve common goals.
- Capacity prioritization of tasks and deadlines.
- Skills for working under pressure in scenarios with software teams, quality assurance, project managers, and customers.

Technical:

- Design, development, and implementation of software applications using Spring as the main framework.
- Knowledge and experience in RUP and SCRUM software methodologies.
- Experience working with microservices, CQRS, event sourcing, Rest, Apache Kafka, No SQL and SQL databases

Languages:

- Ability to speak and write English fluently.

Experience

Perficient/ Software Engineer/Technical Interviewer

March 2021

PWC (PriceWaterhouseCoopers)

In PWC I have different kinds of tasks not just development, I have to analyze, design, and support some initiatives, perform some investigation about new features and technologies

- Spring, SpringBoot, Spring Data, Spring Cloud Stream
- Kafka
- Docker, Kubernetes
- Unit and Integration Test (Junit, Mockito, Spock)
- Load Testing (Locust)
- Git
- Azure (Cosmos DB, Storage, Search, EventHub)
- Architecture - CQRS, EventSourcing
- Java 8 and 11

Globant/ Software Designer

April 2017- March 2021

Globant (Internal Project)

Working in Globant for an internal project, I had to guide a team in the development of Travel Next, how implement the SpringCloud architecture

- SpringCloud (Gateway, Discovery, Configuration)
- Spring, SpringBoot, Spring Data
- Redis, PostgreSQL, MySQL

LendingClub

Working for LendingClub I become a technical reference for the team, I was recognized several times for my commitment and for analyzing and communicating solutions needed for LendingClub

- Spring, SpringBoot, Spring Data, Spring Batch
- Etcd config server
- Oracle DB
- Microservice Rest
- React (Not expert, but I have to develop some user stories)

Southwest Airlines

I have been working to develop software for a SouthWest airline operations system:

- Architecture - CQRS, EventSourcing, Hexagonal Architecture
- Pivotal Gemfire DB
- Java 8 functional programming
- Spring, Spring Data

Tecnocom / Senior Developer

September 2016 - April 2017

I have been working in the ATH and Banco Popular projects

- JEE, JSF(EJB, JPA) PrimeFaces, JSP, Structs
- Oracle Database, SQL Server

Indra - Bank of Republic Colombia / Consultant

June 2013 - June 2016

I started in Indra doing consulting for implementing cryptographic operations in some Bank Republic systems, but most of my time there I led software teams

- IceFaces, JSF, jquery
- JEE, EJB, JPA, REST Services, JMS
- Ireports, JasperReports
- Oracle DB, PL/SQL
- Jenkins, Maven, Arquillian, Nexus
- WebLogic, Tomcat

Axede- Bank of Republic Colombia / Senior developer

August 2011 - May 2013

I worked in several Java projects for Axede at the Bank of Republic as a senior developer

- IceFaces, JSF, jquery
- JEE, EJB, JPA, REST Services, JMS
- Ireports, JasperReports
- Oracle DB, PL/SQL
- Jenkins, Maven, Arquillian, Nexus
- WebLogic, Tomcat

Axede- Porvenir / Senior developer

May 2010 - July 2011

In Porvenir I worked developing a system for managing the layoffs of state enterprises (consignment, retirement, and consultation):

- IceFaces, JSF
- JEE, EJB, JPA,
- Ireports, JasperReports
- Oracle DB, PL/SQL
- WebLogic

CCB VISEE / Developer

January 2009 - March 2010

In VISEE I performed maintenance on the company's mission-critical software and I developed new requirements

- OAS (Oracle Application Server)
- Java, JSP
- MySql.

ASP Solution / Developer

June 2007 - December 2008

In ASP solutions I developed together with a work team the mission-critical software for VISEE. VISEE is a company dedicated to catalog sales.

- OAS (Oracle Application Server)
- Oracle PL /SQL

Ministry for Social Protection / Database administrator

January 2005 - December 2006

In Ministry for Social Protection I worked together with a medical group to define the medicines that would cover the EPS

- SQL Server
-

Education

Oracle / Java EE 6 Enterprise JavaBeans Developer

October 2015
